

# WEP301 BLUETOOTH® HEADSET

## AWEP301JSECXAR SPECIFICATION SHEET

Take one look at the Samsung WEP301 Bluetooth headset, and you will see it's anything but ordinary. This model comes with a variety of easy-to-apply "skins" that turn a functional headset into a fashion statement. From basic black to pink polka dots to leopard spots and everywhere in between, this headset becomes an extension of your style.

The beauty of the WEP301 is more than skin deep. Like its WEP300 counterpart, this customizable headset is designed for the user who seeks value without compromising quality or performance.

With its kernel-type ear piece, the WEP301 virtually seals off the ear canal to block ambient noise and facilitate crystal clear communication. This smart design also means the headset stays securely in place, whether you choose to use the detachable ear hook or not.

Who said affordable has to be boring? Not Samsung! The WEP301 will have you talking in style.

# Bluetooth Headset Pairing Instructions

1. When you turn on your Samsung Bluetooth headset for the first time, it proceeds into pairing mode immediately.
2. If you have paired the headset with other Bluetooth devices, make sure that the headset is off. Press and hold the Multi-Function button until the blue indicator light stays solid blue after blinking.
3. Set your Bluetooth phone to discover the headset by following your phone's guide. Typically, the steps involve going to a 'Setting', 'Connection', or 'Bluetooth' menu on your phone and then selecting the option to discover Bluetooth devices.
4. Your phone will find the Samsung headset and ask if you want to pair with it. Confirm this by pressing the Yes or OK key.
5. Enter a passkey or PIN, 0000 (4 zeros), then press the Yes or OK key.
6. If pairing was successful, the indicator light will flash in blue 10 times rapidly before going to flashing every 3 seconds. If unsuccessful, the light remains on, and you will need to re-attempt pairing.
7. When you turn on your headset after pairing with the phone, the headset is automatically connected to the phone.
8. When you turn on your phone after pairing with the headset, the phone is connected to the headset by pressing the Multi-Function button.

SAMSUNG

“number one in brand loyalty seven years in a row”

Samsung mobile phones have been rated number one in brand loyalty by consumers seven years in a row, according to Brand Keys, a leading independent authority on brand loyalty.
